Objective

Motivated Software Engineering student seeking a Software Development Internship to apply technical skills and gain real-world experience.

Skills

- Programming: JavaScript, TypeScript, Java
- Frontend: React, Next.js, HTML, CSS, TailwindCSS
- Backend: Node.js, Express.js, Socket.io
- Database: MongoDB, MySQL
- Tools: Git, Docker, Postman, Figma

Projects

RTChatApp – Full-stack Real-time Chat Application (Personal Projects)

[GitHub](#) — [Live Demo](#)

- Built a real-time chat application using React, Node.js, Express, and MongoDB.
- Implemented instant messaging using Socket.io supporting real-time updates and notifications.
- Designed secure authentication with JWT, refresh tokens, and bcrypt password hashing.
- Improved frontend performance using TypeScript, Zustand, and TailwindCSS.

Library Management System – Full-stack Web Application (Personal Projects)

[GitHub](#) — [Live Demo](#)

- Developed a library management system with React, Node.js, Express, and MongoDB.
- Implemented authentication with JWT and OTP-based password recovery via email.
- Built core features including book search, borrowing requests, user management, and admin dashboard.

Experience

Intern – Honeywell

Sep 2024 – Nov 2024

- Collaborated with engineers to understand building automation systems.
- Gained experience working in professional engineering environments and technical documentation.

Education

University of Economics - Technology for Industries

Sep 2021 – Sep 2025

Major: Information Technology

GPA: 3.0/4.0
